#### Dinner

Tossed Salad with Dressing  
Wild Rice a la Berwick - Rigatoni  
Peas & Mushrooms - Corn  
Chicken Marsala - Seafood Newburg  
Apple Pie

### Reservations:

The cost of the meal will be covered by ASU this month. Bring and friend! Reservations are being taken at 294-6078 (6:30 am to 12 midnight). **You can also email your reservations. Send your reservation request to Stuart Boulton via email at [sboulton@columbus.rr.com](mailto:sboulton@columbus.rr.com).** Please place your reservation by 3 pm, Friday, February 15, 2002. Cancellations will be accepted until 12:00 noon, Monday, February 18, 2002. Reservations made, but not attended, will result in monies owed.

## AS/400 Security Exposures Revealed

Steve Martinson of Pentasafe joins us to share Pentasafe's knowledge of security issues on the AS/400.

Based on numerous security reviews Pentasafe has conducted in iSeries and AS/400 environments in the past, PentaSafe has identified several exposures or vulnerabilities that show up again and again. Most of these exposures exist "on the inside," where most system administrators feel the safest. However, even if you've got remote accesses ("exit points") to your iSeries and AS/400 systems protected, you may still have gaping security holes that leave your business critical data vulnerable to unauthorized access.

Steve Martinson joined PentaSafe in October 2000 as Product Marketing Manager for the iSeries and AS/400 product line. Steve previously served as InfoSec Director for a large credit card servicing organization based in Wilmington, DE. and has over 10 years of AS/400 security experience.

PentaSafe enables companies to grow more safely by providing a centralized security management solution that includes people, policy and technology. Unlike any other vendor, our solutions help companies build best practice security policies and then educate the people within an organization to comply with these policies.

PentaSafe then provides best of breed security technologies including vulnerability assessment, intrusion detection, user management, and remote access management -- all designed to ensure maximum protection of information assets throughout a corporate enterprise.

With PentaSafe, administrators can audit and secure iSeries, Windows 2000/NT, Unix, Linux, databases, web servers, web applications and more, all from a central point of control. PentaSafe has over 1500 customers worldwide including 5 of the Big 5 auditing firms

## From the President...

Sorry about the problems with last month's meeting, but I hope this month's meeting will make up for it. Steve Martinson from PentaSafe will be speaking about AS/400 security. A brief explanation of the topic is elsewhere in the newsletter. Pentasafe is a vendor that specializes in security. Wayne Evans, also from Pentasafe, gave one of the best ASU talks ever about owner adopted security a few years back, so I expect this month's speaker to be very good also.

Unfortunately I will not be able to attend this month's meeting, so please take good notes and fill me in at next month's meeting. In March we plan on having Brian continue his SQL discussions with a talk about stored procedures. The December meeting went well at the beautiful facility at the conservatory and I believe the people who attended had a wonderful time.

*Drew*

## ASU LEADERSHIP

### Officers

|              |               |  |
|--------------|---------------|--|
| President    | Drew Moulton  | 523-2251   |
|              |               | <a href="mailto:Amoulton@aacanet.com">Amoulton@aacanet.com</a>   |
| V. President | John Ransom   | 422-7176   |
|              |               | <a href="mailto:John.Ransom@chase.com">John.Ransom@chase.com</a> |
| Treasurer    | Brian Moler   | 799-1850   |
|              |               | <a href="mailto:bmoler@insight.rr.com">bmoler@insight.rr.com</a> |
| Secretary    | Betty Campton |  |
