

Mount Carmel Health Opens Its Doors To ASU

Join us for the October meeting as John Lawson, Vice President of Information Technology Operations, takes us on a tour of the data center of Mount Carmel Health Systems in the Corporate Services Building on the Mount Carmel East Campus.

Dinner will be at the Mt. Carmel facility. Following dinner, John will provide an overview of Mount Carmel's information technology environment including:

- The History of Mount Carmel
- About Mount Carmel's Customers
- About Mount Carmel's Applications
- The Network Environment
- The Hardware Environment
- The Operating Platforms

A tour of the data center will follow the presentation.

About Mt. Carmel

For 118 years, Mount Carmel has been providing world-class health care with compassion, acceptance, respect and empathy. In that time, they have grown into one of the largest health care providers in central Ohio, offering patient care in three impressive and respected hospitals, as well as in surgery centers, outpatient facilities, physicians' offices, community outreach sites and homes throughout central Ohio.

Mount Carmel is a community of more than 8,500 employees, 1,500 physicians and 1,300 volunteers - all of whom are committed to the extraordinary care of its patients and their families. Mount Carmel's team of doctors, nurses, counselors, technicians, administrators, assistants, service workers and friends serving more than a half million patients each year.

With state-of-the art technologies, pioneering procedures, innovative treatments, cutting edge research, compassionate support services, and unlimited ongoing education, Mount Carmel strives every day to accomplish its mission of honoring every soul with loving service.

About John Lawson

John is the Vice President of Information Technology Operations at Mount Carmel. He joined Mount

Building 6
Broad Street and I-270

Carmel in late 1995 as a consultant to help put together the technological and operating strategies. In April of 1996, John moved to a full time status and has been there ever since. As part of Mount Carmel's Operations, John leads the team responsible for all the technology within Mount Carmel. This includes Mount Carmel West, Mount Carmel East, Mount Carmel St. Ann's, Mount Carmel Hospice, Mount Carmel Homecare, Mount Carmel Home Medical and Infusion services. In addition there are Ambulatory Surgical Centers, Urgent Care Centers and other ancillary businesses which are supported.

President's Note...

Hello All...

It's getting a little cold out there these days. We want to make sure that we do not get cold as an organization. How can we not be cold? We can not be cold by staying at least warm. We must stay active and keep our creative and motivational juices flowing. By participating in monthly ASU meetings you will discover the brighter side of challenges you face from time to time.

I would like to thank Tom Fowler of Tech Disposal for a great presentation about recycling computer hardware and the facility tour. Seems like our membership was very interested in the topic and had lots of questions. If you have computer hardware that needs to be destroyed or can be recycled, you will want to consider the services Tech Disposal can provide.

Our October meeting will be a presentation and tour at the Mt. Carmel Data Center located on the east side of Columbus. I hear that this data center is state of the art. Don't miss this opportunity to generate some excitement and create a great turn out at the Mt. Carmel Hospital Data Center.

As always, bring a friend or two.

See you at ASU.

John
