

iTera Looks at Next Generation HA Solutions

For November, ASU returns to the Berwick Manor Party House to host iTera as they provide the latest information on high availability solutions for the iSeries.

Scott Johnson from iTera will share the latest developments about high availability on the iSeries and how iTera can help your organization.

iTera is recognized as an Advanced IBM business partner, and as such, all of its products are included as part of IBM's Tools Network solutions. In addition, some of the largest iSeries software vendors (ISVs), including MAPICS, Siemens and McKesson have formed strategic alliances with iTera and have integrated one or more iTera products with their solutions.

About Our Speaker

Scott Johnson is the Vice President of Strategic Alliances for iTera, Inc. In this role, he is responsible for the enablement of iSeries – AS/400 based “Availability” solutions through an extensive network of IBM Premier Business Partners.

With over 25 years of IBM midrange related solutions delivery experience, he has developed a strong understanding of the iSeries – AS/400 installed users requirements.

In addition, his knowledge of IBM Business Partners has enabled him to recognize the geographically based leaders, and their ability to deliver affordable, adaptable, and scalable business continuity and recovery solutions.

Throughout his career, Scott has been extremely focused on the “Business Continuity” needs of the iSeries install base. His industry experience includes the “High Availability” enablement of many Hospitality/Gaming, and cross industry Manufacturing, Distribution, Financial, Transportation, Insurance, and Health sector iSeries centric accounts.

November Meeting
Next Generation
High Availability
Tuesday, November 15, 2005

Berwick Manor Party House
(3250 Refugee Road at Winchester Pike)

About iTera

Headquartered in Salt Lake City, Utah, iTera, Inc. is a leading developer and integrator of iSeries high availability and continuous availability solutions. iTera was formed in 1997, specializing in the development of software solutions to increase and improve the availability of iSeries (AS/400) systems as well as streamline data management processes. Since then, iTera has implemented its solutions at hundreds of businesses around the world, and has spent millions of dollars developing and perfecting its full range of innovative and robust solutions all with the goal of improving availability of data in iSeries environments.

Online resources

iTera - more about iTera's products including the Echo² high availability solution.

President's Note...

Hello All...

I have a challenge for each of you. The challenge is simple. Join us on November 15, 2005 for some very beneficial information about High Availability for the iSeries. iTera Inc. will be present to provide information to us to be more successful in our business. The goal of this meeting is to come away knowing and understanding how we can make our iSeries more efficient and practical. Please see more information about iTera Inc. in this newsletter.

I would like to thank John Lawson of Mt. Carmel for providing a very good overview of Mt. Carmel's technology and tour. Also, Mt. Carmel provided a delicious dinner at no charge to ASU.

In December, we will be having our Holiday Party. Look for details about what we will be doing and where the event will be held. I guarantee that you will benefit greatly from this meeting.

As always, bring a friend or two.

See you at ASU.

John
