## President's Note...

Hello All...

I would like to thank Graham Boote from SPSS for presenting Business Intelligence and how to be successful with the implementation. Graham also pointed out some very important issues about Data Warehousing. I found the presentation to be very informative and beneficial for those needing a solution of this kind.

This month at ASU we have a wonderful opportunity to hear about the new IBM System i5. When I first heard about this opportunity, it was one that I could not let pass us by. Please come out February 21, 2006 to hear about the new IBM System i5. Also see additional information about the February IBM presentation.

Remember to bring a friend to the meeting.

See you at ASU.

*John*
