Cancellations will be accepted until 12:00 noon of the Monday before the meeting. Reservations made, but not attended, will result in monies owed.

Business-Enabling iSeries Data

Your iSeries system is mission critical and contains valuable information on customers, products, suppliers and more. Because this information is so valuable you're being pressured to open access to these systems by other lines of business that want to access and integrate that critical information, but your primary concern has to be the stability and security of your iSeries system.

This talk will describe techniques for integrating production iSeries data without impact or change to your iSeries system. You will learn how to provide real-time data for business uses such as:

- Dashboards, operational business intelligence and real-time reporting
- e-Commerce sites with real-time order, inventory and customer information
- SOA enabling and integrating data

About our Speaker

As Senior Director of Product Management for DataMirror, Paul O'Hagen is responsible for the life cycle of new feature development for DataMirror's real-time integration solutions, including Integration Suite and Transformation Server.

Prior to joining DataMirror, Paul spent five years at Open Text where he was responsible for information retrieval, knowledge management technologies, and techniques. Paul has also led teams that have won numerous industry awards for new product releases

iSeries Network Roadshow Coming to Columbus in June!

Don't miss this great opportunity for a full day of great speakers and information sharing.

June 27
Columbus Athenaeum

President's Note...

Hello All...

I would like to take this opportunity to thank Gary Konicek from IBM's Rochester office for sharing the latest news for V5R4. This topic for most in attendance was helpful information that can be used immediately on the system. We also had a great exchange of questions and answers. If you were not present at this meeting, you missed a good presentation about V5R4.

This month's meeting will be presented by Paul Hagen, Senior Director of Product Management for DataMirror Corporation. Paul will be presenting techniques used for integrating data solutions without change or impact to your iSeries system. Please join us at the Polaris Grill on May 16, 2006. Because seating is limited, please RSVP by May 12, 2006.

Finally, in May 2006 we will be selecting the ASU leadership team for 2006 - 2007. All positions are available and I encourage you to be involved. The following positions are available with individuals interested in the ASU Leadership team:

President - John Ransom
 Vice President - Open
 Secretary - Fatimah Johnson
 Treasurer - Stuart Boulton

Board of Directors
 1. Dean Liming
 2. Loretta Massey
 3. Jon Juracich

There are many opportunities to be involved. Just think of what you want to do and simply get involved.

Thanks

John
